WORK EXPERIENCE AND PROJECT

Customer support Executive, Thinksynq solutions, Chennai

June 2024 - Present

- Passionate about helping people and delivering exceptional customer experiences. Awarded the 'Guiding Star Award' for exceptional performance and commitment to customer satisfaction. Dedicated to ensuring customer satisfaction and contributing to team success.

Hiding Text Using Image Steganography, Python

Sep 2022 - Mini project

- Hidden information like text into an image in a way that is imperceptible to the human eye.
- We are using python libraries such as Pillow, Open CV and Stegano
- It's ensuring secure and discreet information transfer while preserving the visual quality of the image.

Wi-Fi Controlled Car, IoT

Sep 2023 - Innovator's Day

- A Wi-Fi-controlled car utilizes a microcontroller to enable remote operation through a wireless network.
- The system integrates Wi-Fi modules, motor drivers, and sensors to facilitate commands such as motion control, direction, and speed adjustments, all managed via a smartphone or web-based interface.
